📄 <https://github.com/AlexDenisov>

Software should be beautiful. Both inside and outside.

Brief description

My main direction - iOS and RubyOnRails development.

This symbiosis allows me to create interacting system of a mobile client and a web service.

I really enjoy OpenSource software and do my best to develop and contribute Open-Source projects which I'm interested in.

OpenSource Projects

Objective-C

iActiveRecord <https://github.com/AlexDenisov/iActiveRecord>

SQLite-based ActiveRecord implementation for iOS

FontasticIcons <https://github.com/AlexDenisov/FontasticIcons>

This library provides pretty simple integration of iconic fonts into iOS application

Ruby

guard-frank <https://github.com/AlexDenisov/guard-frank>

Ruby gem which allows to run Cucumber features for iOS automatically.

Supports Frank BDD framework.

guard-calabash-ios <https://github.com/AlexDenisov/guard-calabash-ios>

Ruby gem which allows to run Cucumber features for iOS automatically.

Supports Calabash-iOS BDD framework.

Ruby On Rails

QuotePad <https://github.com/AlexDenisov/QuotePad>

Simple private service like <http://bash.org/>, which can be deployed to your own server.

Commercial Projects

Objective-C

MyPickup <https://itunes.apple.com/us/app/mypickup-diary/id503579078>

Diary Development of iOS application with non-standart design.

RubyOnRails

Muddler <http://itunes.apple.com/us/app/muddler/id498512664>

Development of web backend for mobile clients.

Objective-C/RubyOnRails

My Lawyer <http://itunes.apple.com/ru/app/moj-urist/id475311463>

Development both iOS application and web backend.

Experience

- Oct 2012 - **iOS developer**, *Stanfy LLC. Kiev, Ukraine.*
Mar 2013 Assessment of requirements for software development and time estimation.
Software development.
- Feb 2011 - **iOS/RubyOnRails developer**, *MLSDev LLC. Donetsk, Ukraine.*
Oct 2012 Assessment of requirements for software development and time estimation.
Software development.
Web-services deployment and support.
- Aug 2010 - **C++/Qt developer**, *WiseTroll (Sole Proprietorship). Donetsk, Ukraine.*
Feb 2011 Assessment of requirements for software development and time estimation.
Software development.

Development skills

Programming Languages

- Expert Objective-C
Intermediate C, C++, Ruby, Bash
Basic Perl, LaTeX

Frameworks and tools

- iOS CocoaPods, Cedar, Calabash-iOS, RestKit, CoreData
RubyOnRails Cucumber, RSpec, Rabl, Devise, CanCan, Twitter Bootstrap, Grape, Slim

Server administration skills

- Redmine, GitLabHQ Deployment, support and migration to another servers (Debian, Ubuntu)
- Jenkins Deployment and support on MacOS X
- Nginx, Apache Setup and configuration on rpm- and deb-based linux systems

Computer skills

- IDE Xcode, Vim, QtCreator
OS Linux (RedHat, Debian), MacOS X
VCS Git, Mercurial
- Development techniques BDD, TDD, XP, Continuous Integration

Education

- Oct 2006 - **Software Development**, *Computer Academy "Step", Donetsk, Ukraine.*
Dec 2011 Team member, represented Ukraine at the final of ImagineCup'10 at Poland.
- Sep 2006 - **Management of Organizations, Bachelor**, *Open International University of Human Development "Ukraine".*
Jul 2010
