Software should be beautiful. Both inside and outside.

Brief description

My main direction - iOS and RubyOnRails development.

This symbiosis allows me to create interacting system of a mobile client and a web service.

I really enjoy OpenSource software and do my best to develop and contribute Open-Source projects which I'm interested in.

OpenSource Projects

Objective-C

BloodMagic <https://github.com/railware/BloodMagic>

BloodMagic is a framework, which gives you a way to create custom property attributes.

iActiveRecord <https://github.com/AlexDenisov/iActiveRecord>

SQLite-based ActiveRecord implementation for iOS.

Discontinued.

Swift

Sleipnir <https://github.com/railware/Sleipnir>

BDD framework for Swift.

Ruby

guard-frank <https://github.com/AlexDenisov/guard-frank>

Ruby gem which allows to run Frank features for iOS automatically.

Supports Frank BDD framework.

guard-calabash-ios <https://github.com/AlexDenisov/guard-calabash-ios>

Ruby gem which allows to run Cucumber features for iOS automatically.

Supports Calabash-iOS BDD framework.

Ruby On Rails

GitLabHQ <https://github.com/gitlabhq/gitlabhq>

Open source software to collaborate on code.

Not an author, just sent few patches.

QuotePad <https://github.com/AlexDenisov/QuotePad>

Simple private service like <http://bash.org/>, which can be deployed to your own server.

Commercial Projects

Objective-C

https://itunes.apple.com/us/app/talendo-jobborse-und-stellen/id763634231?mt=8

Talendo <https://itunes.apple.com/us/app/talendo-jobborse-und-stellen/id763634231?mt=8>
Development of

MyPickup <https://itunes.apple.com/us/app/mypickup-diary/id503579078>
Diary Development of iOS application with non-standart design.

RubyOnRails

Muddler <http://itunes.apple.com/us/app/muddler/id498512664>
Development of web backend for mobile clients.

Objective-C/RubyOnRails

My Lawyer <http://itunes.apple.com/ru/app/moj-urist/id475311463>
Development both iOS application and web backend.

Experience

- May 2013 - **Software engineer**, *Railsware, Kiev, Ukraine*.
Present Assessment of requirements for software development and time estimation.
Software development.
- Oct 2012 - **iOS developer**, *Stanfy LLC. Kiev, Ukraine*.
Mar 2013 Assessment of requirements for software development and time estimation.
Software development.
- Feb 2011 - **iOS/RubyOnRails developer**, *MLSDev LLC. Donetsk, Ukraine*.
Oct 2012 Assessment of requirements for software development and time estimation.
Software development.
Web-services deployment and support.
- Aug 2010 - **C++/Qt developer**, *WiseTroll (Sole Proprietorship). Donetsk, Ukraine*.
Feb 2011 Assessment of requirements for software development and time estimation.
Software development.

Development skills

Programming Languages

Expert Objective-C
Intermediate C, C++, Ruby, Bash
Basic Swift, Perl, LaTeX

Frameworks and tools

iOS CocoaPods, Cedar, Calabash-iOS, RestKit, CoreData
RubyOnRails Cucumber, RSpec, Rabl, Devise, CanCan, Twitter Bootstrap, Grape, Slim

Server administration skills

Redmine, Deployment, support and migration to another servers (Debian, Ubuntu)
GitLabHQ

Jenkins Deployment and support on MacOS X

Nginx, Setup and configuration on rpm- and deb-based linux systems
Apache

Computer skills

IDE/Editors Xcode, AppCode, QtCreator, Vim
OS Linux (RedHat, Debian), MacOS X
VCS Git, Mercurial
Development BDD, TDD, XP, Continuous Integration
technics

Education

Oct 2006 - **Software Development**, *Computer Academy "Step", Donetsk, Ukraine.*
Dec 2011 Team member, represented Ukraine at the final of ImagineCup'10 at Poland.
Sep 2006 - **Management of Organizations, Bachelor**, *Open International University of Human Development "Ukraine".*
Jul 2010
