Software should be beautiful. Both inside and outside.

Brief description

My main direction - iOS and RubyOnRails development.
This symbiosis allows me to create interacting system of a mobile client and a web service.
I really enjoy OpenSource software and do my best to develop and contribute OpenSource projects which I'm interested in.

OpenSource Projects

Objective-C

iActiveRecord https://github.com/AlexDenisov/iActiveRecord
SQLite-based ActiveRecord implementation for iOS

Ruby

guard-frank https://github.com/AlexDenisov/guard-frank
Ruby gem which allows to run Cucumber features for iOS automatically.
Supports Frank BDD framework.

guard-calabash-ios https://github.com/AlexDenisov/guard-calabash-ios
Ruby gem which allows to run Cucumber features for iOS automatically.
Supports Calabash-iOS BDD framework.

Ruby On Rails

QuotePad https://github.com/AlexDenisov/QuotePad
Simple private service like http://bash.org/, which can be deployed to your own server.

Commercial Projects

Objective-C

MyPickup Diary http://mypickupdiary.com/
Development of iOS application with non-standart design.

RubyOnRails

Muddler http://itunes.apple.com/us/app/muddler/id498512664
Development of web backend for mobile clients.

Objective-C/RubyOnRails

My Lawyer http://itunes.apple.com/ru/app/moj-urist/id475311463
Development both iOS application and web backend.

Experience

Feb 2011 - Present	**iOS/RubyOnRails developer**, *MLSDev LLC. Donetsk, Ukraine.* Assessment of requirements for software development and time estimation. Software development. Web-services deployment and support.
Aug 2010 - Feb 2011	**C++/Qt developer**, *WiseTroll (Sole Proprietorship). Donetsk, Ukraine.* Assessment of requirements for software development and time estimation. Software development.

Development skills

Programming Languages

Expert	Objective-C
Intermediate	C, C++, Ruby, Bash
Basic	Perl, LaTeX

Frameworks and tools

iOS	CocoaPods, Cedar, Calabash-iOS, RestKit, CoreData
RubyOnRails	Cucumber, RSpec, Rabl, Devise, CanCan, Twitter Bootstrap, Grape, Slim

Server administration skills

Redmine, GitLabHQ	Deployment, support and migration to another servers (Debian, Ubuntu)
Jenkins	Deployment and support on MacOS X
Nginx, Apache	Setup and configuration on rpm- and deb-based linux systems

Computer skills

IDE	Xcode, Vim, QtCreator
OS	Linux (RedHat, Debian), MacOS X
VCS	Git, Mercurial
Development technics	BDD, TDD, XP, Continuous Integration

Education

Oct 2006 - Dec 2011	**Software Development**, *Computer Academy "Step", Donetsk, Ukraine.* Team member, represented Ukraine at the final of ImagineCup'10 at Poland.
Sep 2006 - Jul 2010	**Management of Organizations, Bachelor**, *Open International University of Human Development "Ukraine".*
